

iData i3 UHF Mobile Intelligent Terminal

Redefine RFID

➤ **Leading the trend of getting “smaller”**

- ◆ The performance of Xiao-i, the compact original intelligent terminal, has just been upgraded;
- ◆ The 4-core 2.0GHz high-performance processor and Android 10.0 operating system are leading the trend of getting "smaller" in the industry of the smart terminal;
- ◆ The whole machine only weighs 185g and can last for a longtime without getting weaker.

➤ **Born for UHF conditions**

- ◆ Built-in UHF RFID with more flexible scanning operation;
- ◆ The output power is adjustable 0~25dBm + SJC technology, the read-write distance can be both close and far without errors.

➤ **Tiny body with great wisdom**

- ◆ With the self-developed scanning engine, its scanning and decoding increased by 50%, and a half of power consumption is saved;
- ◆ With the 5G Wi-Fi + PA signal amplifier, signal transfers faster and steadier with less consumption.

◆ **Tiny but durable**

- ◆ With IP54 protection level + over a million keystrokes lifespan, the small body can also be very

- ♦ durable;
- ♦ 3000mAh battery, unique iData power saving optimization, available to work all day.
